Address

Karakalpakstan, Kanlikul District

Education

2021

Junior

Kanlikul IT Center

2022

Strong Junior

Coursera.org / Next Js course

Big Skills

- JavaScript
- React Js
- Next Js
- Tailwind Css
- Sanity (Back-End)
- Git/Github

Language

Karakalpak

English (beginner)

Experience

2022 - 2023

Kanlikul IT Center

Junior Mentor

My first job was at Kanikul IT Center, where I taught front-end programming as a trainee. Classes lasted 6 months. Students learn programming technologies such as HTML, Css, Sass, Bootstrap, JavaScript, React Js, Next Js.

Students who have completed the course are currently working in front-end web programming

2023 (November) - 2023 (May)

Kanlikul IT Academy

'Junior +' Mentor

I taught students at this IT academy. This Academy had basic and advanced courses. A typical course teaches HTML, Css, Sass, Bootstrap and Javascript programming languages. The advanced course teaches JavaScript libraries and Dynamic Platforms, and I taught graduates how to work on the upwork platform.

2023

Bizler Group

Strong Junior

I worked on several projects at Bizler Group, one of which was the tourism site Nukus Auto Travel. This project is one of my favorite projects.

We completed this project in 2 weeks. In addition to this project in the company, I helped with other platforms and gained experience
